REHEARSING THE FUTURE...  
**3RD RING OUT**  
3RD RING OUT

Imagining a world in which nature takes revenge on industrial humanity, *3rd Ring Out* takes you forward in time to an emergency planning rehearsal.

As 'team leaders' guide you through this remarkable simulation, set in adapted shipping containers, it's a chance to consider your effect on your future environment.

Using live performance, video and interactive computer systems, *3rd Ring Out* has the immediacy of theatre combined with the thrill of a disaster movie; a fiction rooted in fact.
